

TABLE OF CONTENTS

PREFACE.....	iii
EXECUTIVE SUMMARY	iv
TABLE OF CONTENTS.....	vii
LIST OF TABLES.....	xxv
LIST OF FIGURES	xxviii
LIST OF APPENDICES.....	xxxix
ROADMAP TO THE ELEMENTS.....	xxxiii
ACKNOWLEDGEMENTS.....	xlii
Chapter 1	1
INTRODUCTION AND PURPOSE	1
CONGRESSIONAL MANDATE AND GUIDANCE.....	2
ORGANIZATION AND FORMAT.....	4
Chapter 2	6
APPROACH.....	6
ORGANIZATIONAL STRUCTURE	6
IDENTIFICATION OF SPECIES OF GREATEST CONSERVATION NEED.....	8
Indicative Vertebrate, Mollusc, and Crustacean Species.....	8
Species in New Mexico	8
Criteria to Identify Indicative Species	8
Remove Common Species	10
Indicative Species Landscape Habitat Associations	11
Identification of Key Habitats.....	11
Species of Greatest Conservation Need.....	12
Vertebrates, Molluscs, and Crustaceans	12
Additional Arthropods	12
SGCN ABUNDANCE AND DISTRIBUTION	14
SGCN Abundance.....	14
SGCN Distribution.....	16
Terrestrial Vertebrate Species.....	16
Aquatic Vertebrate Species.....	16
Mollusc, Crustacean, and Other Arthropod Species.....	16
IDENTIFICATION OF FACTORS INFLUENCING SPECIES AND HABITATS	17
IDENTIFICATION OF CONSERVATION ACTIONS	19
IDENTIFICATION OF KEY AREAS FOR CONSERVATION ACTION	21
OPPORTUNITIES FOR AGENCY AND PUBLIC INVOLVEMENT	22
Chapter 3	25
NEW MEXICO'S BIODIVERSITY	25
STATE RESOURCES	25
Physical Description	25

Geologic History	25
Climate	25
Flora and Fauna Biodiversity	25
New Mexico's Population and Economy	26
Land Stewards.....	28
NEW MEXICO'S ECOLOGICAL FRAMEWORKS AND KEY HABITATS.....	31
Ecological Frameworks	31
Ecoregions.....	31
Apache Highlands Ecoregion	31
Arizona-New Mexico Mountains Ecoregion	33
Chihuahuan Desert Ecoregion	33
Colorado Plateau Ecoregion	33
Southern Rocky Mountains Ecoregion	34
Southern Shortgrass Prairie Ecoregion	34
Watersheds.....	35
Canadian Watershed	35
Gila Watershed.....	36
Mimbres Watershed.....	36
Pecos Watershed	37
Rio Grande Watershed.....	37
San Juan Watershed	38
Tularosa Watershed	38
Zuni Watershed.....	38
Habitat/Vegetation Classification Systems.....	39
Key Habitat Types	40
Descriptions of Key Terrestrial Habitat Types	40
Chihuahuan Semi-Desert Grasslands.....	40
Intermountain Basins Big Sagebrush Shrubland	40
Madrean Encinal	41
Madrean Pine-Oak Conifer-Oak Forest and Woodland.....	42
Rocky Mountain Alpine-Montane Wet Meadow	42
Rocky Mountain Montane Mixed Conifer Forest and Woodland	43
Western Great Plains Sand Sagebrush.....	44
Western Great Plains Shortgrass Prairie	44
Riparian Habitats	45
Rocky Mountain Bigtooth Maple Ravine Woodland	46
Rocky Mountain Subalpine-Montane Riparian Shrubland.....	46
Rocky Mountain Subalpine-Montane Riparian Woodland.....	47
Rocky Mountain Lower Montane Riparian Woodland and Shrubland	47
North American Warm Desert Lower Montane Riparian Woodland and Shrubland	47
Western Great Plains Riparian Woodland and Shrubland.....	47
North American Warm Desert Riparian Woodland and Shrubland	47
North American Warm Desert Riparian Mesquite Bosque	48
North American Arid West Emergent Marsh	48
Inter-Mountain Basins Greasewood Flat	48

Inter-Mountain Basins Greasewood Wash	48
Inter-Mountain Basins Playa.....	48
North American Warm Desert Wash.....	48
North American Warm Desert Playa	49
Western Great Plains Saline Depression.....	49
Invasive Southwest Riparian Woodland and Shrubland.....	49
Descriptions of Key Aquatic Habitat Types	49
Perennial Marsh/Cienega/Spring/Seep	49
Perennial Large Reservoir.....	49
Perennial 1 st and 2 nd Order Stream	49
Perennial 3 rd and 4 th Order Stream.....	50
Perennial 5 th Order Stream.....	50
Perennial Tank	50
Ephemeral 1 st and 2 nd Order Stream.....	50
Ephemeral Man-Made Catchments.....	50
Ephemeral Natural Catchments	50
Ephemeral Marsh/Cienega/Seeps/Springs	51
WILDLIFE SPECIES AND STATUS	52
Game Species.....	52
State Threatened and Endangered Species	52
Federal Threatened and Endangered Species	52
Chapter 4	53
STATEWIDE ASSESSMENT AND STRATEGIES.....	53
SPECIES OF GREATEST CONSERVATION NEED.....	53
SGCN Abundance.....	58
SGCN Distribution.....	60
SYNTHESIS OF CONSERVATION PRIORITIES	63
Factors that Influence Species and Habitats	63
Habitat Conversion	64
Development Activities	64
Aquatic Habitat Conversion Factors.....	65
Abiotic Resource Use	65
Extractive Resource Uses	65
Wind Energy Development.....	66
Ground Water Depletion.....	66
Pollution.....	66
Consumptive Biological Uses.....	66
Grazing Practices	67
Logging.....	69
Fuel Wood Collection.....	69
Non-Consumptive Biological Uses.....	70
Off-Road Vehicles	70
Military and Borderland Security Activities.....	70
Recreation	71

Invasive and Non-Native Species	71
Diseases, Parasites, and Pathogens	71
Modification of Natural Processes and Ecological Drivers	74
Climate Change and Drought.....	74
Fire Management	75
Ecological Sustainability and Integrity	76
Loss of Keystone Species	76
Transportation Infrastructure	76
Synergistic Effects of Factors Influencing Species and Habitats	77
Information Gaps	81
Research, Survey, and Monitoring Needs.....	82
Desired Future Outcome	84
Prioritized Conservation Actions.....	84
Terrestrial Habitats.....	84
Aquatic Habitats.....	86
KEY AREAS FOR CONSERVATION ACTION	89

Chapter 5 **91**

**ASSESSMENTS AND STRATEGIES FOR SPECIES OF GREATEST
CONSERVATION NEED AND KEY HABITATS.....** **91**

APACHE HIGHLANDS ECOREGION	93
Species of Greatest Conservation Need.....	95
Chihuahuan Semi-Desert Grassland	97
Habitat Condition.....	97
Problems Affecting Habitat or Species.....	98
Grazing Practices	98
Fire Regimes	98
Development and Exploration	99
Borderland Security Activities.....	99
Off-Road Vehicles	99
Invasive Species.....	99
Information Gaps	99
Research, Survey, and Monitoring Needs.....	100
Desired Future Outcomes	101
Prioritized Conservation Actions.....	101
Madrean Encinal and Madrean Pine-Oak Conifer-Oak Forest and Woodland	102
Habitat Condition.....	102
Problems Affecting Habitats or Species	104
Climate Change and Drought.....	104
Natural Disturbance Regimes	105
Grazing Practices	105
Animal Herbivory	106
Loss of Biological Diversity	106
Non-Native Species	107
Habitat Alteration and Fragmentation	107

Groundwater Depletion.....	107
Mining.....	107
Borderland Security Activities.....	108
Recreation and Tourism.....	108
Information Gaps	108
Research, Survey, and Monitoring Needs.....	108
Desired Future Outcomes	110
Prioritized Conservation Actions.....	111
ARIZONA-NEW MEXICO MOUNTAINS ECOREGION	113
Species of Greatest Conservation Need.....	113
Madrean Encinal and Madrean Pine-Oak Conifer-Oak Forests and Woodlands	117
Habitat Condition.....	117
Problems Affecting Habitats or Species	118
Climate Change and Drought.....	119
Natural Disturbance Regimes	119
Grazing Practices	120
Animal Herbivory	120
Loss of Biological Diversity	120
Non-Native Species	121
Habitat Alteration and Fragmentation	121
Groundwater Depletion.....	121
Mining.....	122
Borderland Security Activities.....	122
Recreation and Tourism.....	122
Information Gaps	122
Research, Survey, and Monitoring Needs.....	123
Desired Future Outcomes	124
Prioritized Conservation Actions.....	125
Rocky Mountain Montane Mixed-Conifer Forests and Woodlands.....	126
Habitat Condition.....	126
Problems Affecting Habitats or Species	127
Climatic Change and Drought	128
Fire Suppression.....	128
Insects and Disease	128
Extractive Resource Uses	129
Recreational Use	130
Non-Native Species	130
Information Gaps	131
Research, Survey, and Monitoring Needs.....	132
Desired Future Outcomes	134
Prioritized Conservation Actions.....	135
Western Great Plains Shortgrass Prairie	138
Habitat Condition.....	138
Problems Affecting Habitats or Species	140
Loss of Keystone Species	140
Grazing Practices	140

Invasive Species.....	140
Recreational and Off-Road Vehicle Use.....	141
Habitat Fragmentation	141
Fire Management	142
Energy Exploration and Development.....	142
Water Withdrawal.....	143
Military Maneuvers.....	143
Pollution.....	143
Information Gaps	143
Research, Survey, and Monitoring Needs.....	144
Desired Future Outcomes	145
Prioritized Conservation Actions.....	146
CHIHUAHUAN DESERT ECOREGION	149
Species of Greatest Conservation Need.....	149
Chihuahuan Semi-Desert Grasslands.....	152
Habitat Condition.....	152
Problems Affecting Habitat or Species.....	153
Grazing Practices	153
Fire Regimes	153
Development and Exploration	153
Off-Road Vehicles	153
Military and Borderland Security Activities.....	154
Non-Native Species	154
Diseases and Pathogens	154
Information Gaps	154
Research, Survey, and Monitoring Needs.....	155
Desired Future Outcomes	156
Prioritized Conservation Actions.....	157
Western Great Plains Sandhill Sagebrush Shrublands.....	158
Habitat Condition.....	158
Problems Affecting Habitat or Species.....	159
Agriculture and Livestock Production.....	159
Development and Exploration	160
Invasive and Non-Native Species	160
Chemical Shrub Control	160
Off-Road Vehicles	161
Information Gaps	161
Research, Survey, and Monitoring Needs.....	161
Desired Future Outcomes	162
Prioritized Conservation Actions.....	163
COLORADO PLATEAU ECOREGION	165
Species of Greatest Conservation Need.....	165
Intermountain Basins Big Sagebrush Shrubland	167
Habitat Condition.....	167
Problems Affecting Habitats or Species	168
Energy Development	169

Invasive Species.....	169
Grazing Practices	169
Fire Management	170
Off-Road Vehicles	170
Information Gaps	170
Research, Survey, and Monitoring Needs.....	171
Desired Future Outcomes	171
Prioritized Conservation Actions.....	172
SOUTHERN ROCKY MOUNTAINS ECOREGION	174
Species of Greatest Conservation Need.....	174
Intermountain Basins Big Sagebrush Shrubland	174
Habitat Condition.....	174
Problems Affecting Habitat or Species.....	178
Grazing Practices	178
Urban/Residential, Commercial/Industrial, and Recreational Development.....	178
Non-Native Species	178
Fire Management	179
Disease and Toxins	179
Information Gaps	179
Research, Survey, and Monitoring Needs.....	180
Desired Future Outcomes	180
Prioritized Conservation Actions.....	181
Rocky Mountain Alpine-Montane Wet Meadow	182
Habitat Condition.....	182
Problems Affecting Habitats or Species	183
Fire Management	183
Drainage of Wetlands	183
Grazing Practices	183
Recreational Use.....	183
Information Gaps	184
Research, Survey, and Monitoring Needs.....	184
Desired Future Outcomes	184
Prioritized Conservation Actions.....	185
Rocky Mountain Montane Mixed-Conifer Forest and Woodland.....	186
Habitat Condition.....	186
Problems Affecting Habitats or Species	187
Climatic Change and Drought	187
Fire Suppression.....	187
Insects and Disease	188
Extractive Resource Uses	189
Recreational Use	190
Non-Native Species	190
Information Gaps	190
Research, Survey, and Monitoring Needs.....	191
Desired Future Outcomes	194
Prioritized Conservation Actions.....	196

SOUTHERN SHORTGRASS PRAIRIE ECOREGION.....	199
Species of Greatest Conservation Need.....	199
Western Great Plains Sandhill Sagebrush Shrublands.....	202
Habitat Condition.....	202
Problems Affecting Habitats or Species	202
Agriculture and Livestock Production	203
Energy Development and Exploration.....	203
Invasive and Non-Native Species	203
Chemical Shrub Control	203
Off-Road Vehicles	204
Information Gaps	204
Research, Survey, and Monitoring Needs.....	205
Desired Future Outcomes	206
Prioritized Conservation Actions.....	207
Western Great Plains Shortgrass Prairie.....	208
Habitat Condition.....	208
Problems Affecting Habitats or Species	210
Energy Exploration and Development.....	210
Pollution.....	210
Habitat Fragmentation	210
Grazing Practices	211
Loss of Keystone Species	211
Fire Management	212
Invasive Species.....	212
Military Maneuvers.....	212
Recreational and Off-Road Vehicle Use.....	213
Information Gaps	213
Research, Survey, and Monitoring Needs.....	214
Desired Future Outcomes	215
Prioritized Conservation Actions.....	216
STATEWIDE DISTRIBUTED RIPARIAN HABITATS.....	219
Species of Greatest Conservation Need.....	220
Riparian Habitats	223
Habitat Condition.....	223
Problems Affecting Habitat or Species.....	226
Natural Flow Regime	226
Water Loss	228
Habitat Conversion	228
Invasive Species.....	229
Restoration Practices.....	230
Loss of Keystone Species	231
Grazing Practices	232
Fire Management	233
Disease	234
Regulatory Protection	234
Information Gaps	235

Research, Survey, and Monitoring Needs.....	237
Desired Future Outcomes	240
Prioritized Conservation Actions.....	242
STATEWIDE DISTRIBUTED EPHEMERAL HABITATS AND PERENNIAL TANKS	248
Species of Greatest Conservation Need.....	248
Geographically Isolated Wetlands	254
Habitat Condition.....	254
Problems Affecting Habitats or Species	255
Habitat Conversion	255
Military Activities.....	255
Invasive Species.....	256
Legal Protection	256
Information Gaps	257
Research, Survey, and Monitoring Needs.....	258
Desired Future Outcomes	259
Prioritized Conservation Actions.....	260
Ephemeral Man-Made Catchments.....	261
Habitat Condition.....	261
Problems Affecting Habitats or Species	261
Habitat Conversion	261
Information Gaps	262
Research, Survey, and Monitoring Needs.....	262
Desired Future Outcomes	263
Prioritized Conservation Actions.....	264
Perennial Tanks.....	265
Habitat Condition.....	265
Problems Affecting Habitats or Species	265
Habitat Conversion	265
Information Gaps	265
Research, Survey, and Monitoring Needs.....	266
Desired Future Outcomes	267
Prioritized Conservation Actions.....	267
CANADIAN WATERSHED.....	269
Species of Greatest Conservation Need.....	269
Perennial Large Reservoirs	273
Habitat Condition.....	273
Problems Affecting Habitats or Species	273
Invasive Species.....	273
Information Gaps	273
Research, Survey, and Monitoring Needs.....	274
Desired Future Outcomes	274
Prioritized Conservation Actions.....	275
Perennial Marsh/Cienega/Spring/Seep	276
Habitat Condition.....	276
Problems Affecting Habitats or Species	276

Urban Development/Dewatering	276
Invasive Species.....	276
Information Gaps	277
Research, Survey, and Monitoring Needs.....	277
Desired Future Outcomes	278
Prioritized Conservation Actions.....	278
Perennial 1 st and 2 nd Order Streams	279
Habitat Condition.....	279
Problems Affecting Habitats or Species	280
Invasive Species.....	280
Diseases and Pathogens	280
Habitat Alteration.....	280
Oil and Gas Exploration.....	280
Information Gaps	280
Research, Survey, and Monitoring Needs.....	281
Desired Future Outcomes	282
Prioritized Conservation Actions.....	282
Perennial 3 rd and 4 th Order Streams	283
Habitat Condition.....	283
Problems Affecting Habitats or Species	284
Habitat Alteration.....	284
Diseases and Pathogens	284
Information Gaps	284
Research, Survey, and Monitoring Needs.....	285
Desired Future Outcomes	285
Prioritized Conservation Actions.....	286
GILA WATERSHED	287
Species of Greatest Conservation Need.....	289
Perennial Marsh/Cienega/Spring/Seep	291
Habitat Condition.....	291
Problems Affecting Habitats or Species	291
Water Withdrawal.....	291
Grazing Practices	292
Non-Native/Invasive Species.....	292
Information Gaps	292
Research, Survey, and Monitoring Needs.....	292
Desired Future Outcomes	293
Prioritized Conservation Actions.....	293
Perennial 1 st and 2 nd Order Stream.....	294
Habitat Condition.....	294
Problems Affecting Habitats or Species	295
Grazing Practices	295
Non-Native/Invasive Species.....	295
Fire Management	295
Information Gaps	295
Research, Survey, and Monitoring Needs.....	296

Desired Future Outcomes	296
Prioritized Conservation Actions.....	297
Perennial 3 rd and 4 th Order Streams	298
Habitat Condition.....	298
Problems Affecting Habitats or Species	298
Transportation Infrastructure	298
Non-Native/Invasive Species.....	298
Grazing Practices	298
Information Gaps	298
Research, Survey, and Monitoring Needs.....	299
Desired Future Outcomes	300
Prioritized Conservation Actions.....	300
Perennial 5 th Order Streams	301
Habitat Condition.....	301
Problems Affecting Habitats or Species	302
Water Withdrawal.....	302
Grazing Practices	302
Transportation Infrastructure	302
Fire Management	302
Non-Native/Invasive Species.....	302
Information Gaps	303
Research, Survey, and Monitoring Needs.....	303
Desired Future Outcomes	304
Prioritized Conservation Actions.....	305
MIMBRES WATERSHED	306
Species of Greatest Conservation Need.....	306
Perennial Marsh/Cienega/Spring/Seep	309
Habitat Condition.....	309
Problems Affecting Habitats or Species	309
Water Withdrawal.....	309
Non-Native Species	309
Habitat Alteration.....	309
Information Gaps	310
Research, Survey, and Monitoring Needs.....	310
Desired Future Outcomes	311
Prioritized Conservation Actions.....	311
Perennial 1 st and 2 nd Order Stream.....	312
Habitat Condition.....	312
Problems Affecting Habitats or Species	312
Fire Management	312
Non-Native/Invasive Species.....	312
Information Gaps	313
Research, Survey, and Monitoring Needs.....	313
Desired Future Outcomes	314
Prioritized Conservation Actions.....	314
Perennial 3 rd and 4 th Order Stream.....	315

Habitat Condition.....	315
Habitat Conversion	315
Non-Native/Invasive Species.....	315
Information Gaps	315
Research, Survey, and Monitoring Needs.....	316
Desired Future Outcomes	316
Prioritized Conservation Actions.....	317
PECOS WATERSHED	319
Species of Greatest Conservation Need.....	319
Perennial Large Reservoirs	322
Habitat Condition.....	322
Problems Affecting Habitats or Species	323
Reservoir Hydrology.....	323
Water Quality.....	323
Information Gaps	323
Research, Survey, and Monitoring Needs.....	324
Desired Future Outcomes	324
Prioritized Conservation Actions.....	325
Perennial Spring/Seep/Marsh/Cienega	326
Habitat Condition.....	326
Problems Affecting Habitats or Species	326
Non-Native/Invasive Species.....	326
Habitat Conversion	326
Information Gaps	327
Research, Survey, and Monitoring Needs.....	327
Desired Future Outcomes	328
Prioritized Conservation Actions.....	328
Perennial 1 st and 2 nd Order Stream.....	329
Habitat Condition.....	329
Problems Affecting Habitats or Species	330
Modification of Natural Processes.....	330
Non-Native/Invasive Species.....	330
Diseases and Pathogens	330
Information Gaps	330
Research, Survey, and Monitoring Needs.....	331
Desired Future Outcomes	331
Prioritized Conservation Actions.....	332
Perennial 3 rd and 4 th Order Stream	333
Habitat Condition.....	333
Problems Affecting Habitats or Species	333
Modification of Natural Processes.....	333
Non-Native/Invasive Species.....	333
Diseases and Pathogens	334
Information Gaps	334
Research, Survey, and Monitoring Needs.....	334
Desired Future Outcomes	335

Prioritized Conservation Actions.....	336
Perennial 5 th Order Stream.....	337
Habitat Condition.....	337
Problems Affecting Habitat or Species.....	337
Impoundments.....	337
Channel Modification	337
Groundwater Pumping.....	337
Pollution.....	337
Non-Native/Invasive Species.....	338
Information Gaps	338
Research, Survey, and Monitoring Needs.....	339
Desired Future Condition.....	339
Prioritized Conservation Actions.....	340
RIO GRANDE WATERSHED	341
Species of Greatest Conservation Need.....	343
Perennial Large Reservoir.....	345
Habitat Condition.....	345
Problems Affecting Habitat or Species.....	345
Reservoir Hydrology.....	345
Non-Native/Invasive Species.....	345
Commercial Harvest	345
Information Gaps	345
Research, Survey, and Monitoring Needs.....	346
Desired Future Outcomes	347
Prioritized Conservation Actions.....	347
Perennial Marsh/Cienega/Spring/Seep	348
Habitat Condition.....	348
Problems Affecting Habitats or Species	348
Dewatering.....	348
Habitat Conversion	348
Information Gaps	349
Research, Survey, and Monitoring Needs.....	349
Desired Future Outcomes	350
Prioritized Conservation Actions.....	350
Perennial 1 st and 2 nd Order Stream.....	351
Habitat Condition.....	351
Problems Affecting Habitat or Species.....	351
Sedimentation	351
Non-Native Species	351
Diseases and Pathogens	352
Information Gaps	352
Research, Survey, and Monitoring Needs.....	352
Desired Future Outcomes	353
Prioritized Conservation Actions.....	354
Perennial 3 rd and 4 th Order Stream.....	355
Habitat Condition.....	355

Problems Affecting Habitat or Species.....	355
Modification of Natural Processes.....	355
Diseases and Pathogens	355
Information Gaps	355
Research, Survey, and Monitoring Needs.....	356
Desired Future Outcomes	357
Prioritized Conservation Actions.....	357
Perennial 5 th Order Stream.....	358
Habitat Condition.....	358
Problems Affecting Habitat or Species.....	359
Modification of Natural Processes.....	359
Information Gaps	359
Research, Survey, and Monitoring Needs.....	359
Desired Future Outcomes	360
Prioritized Conservation Actions.....	361
SAN JUAN WATERSHED.....	362
Species of Greatest Conservation Need.....	364
Perennial Large Reservoir.....	365
Habitat Condition.....	365
Problems Affecting Habitats or Species	365
Water Withdrawals	365
Non-Native Species	365
Information Gaps	365
Research, Survey, and Monitoring Needs.....	366
Desired Future Outcomes	366
Prioritized Conservation Actions.....	367
Perennial 3 rd and 4 th Order Streams	368
Habitat Condition.....	368
Problems Affecting Habitats or Species	368
Water Withdrawal.....	368
Non-Native/Invasive Species.....	368
Diseases and Pathogens	368
Information Gaps	368
Research, Survey, and Monitoring Needs.....	369
Desired Future Outcomes	369
Prioritized Conservation Actions.....	370
Perennial 5 th Order Stream.....	371
Habitat Condition.....	371
Problems Affecting Habitats or Species	371
Modification of Natural Processes.....	371
Pollution.....	371
Non-Native/Invasive Species.....	372
Information Gaps	372
Research and Survey Efforts.....	373
Desired Future Outcomes	373
Prioritized Conservation Actions.....	374

TULAROSA WATERSHED.....	376
Species of Greatest Conservation Need.....	376
Perennial Marsh/Cienega/Spring/Seep	379
Habitat Condition.....	379
Problems Affecting Habitats or Species	379
Water Withdrawal.....	379
Military Activities.....	379
Invasive Species.....	380
Legal Protection.....	380
Information Gaps	380
Research, Survey, and Monitoring Needs.....	381
Desired Future Outcomes	381
Prioritized Conservation Actions.....	382
Perennial 1 st and 2 nd Order Streams	383
Habitat Condition.....	383
Problems Affecting Habitats or Species	384
Water Withdrawal.....	384
Military Activities.....	384
Habitat Conversion	384
Invasive Species.....	384
Legal Protection	384
Information Gaps	385
Research, Survey, and Monitoring Needs.....	385
Desired Future Outcomes	386
Prioritized Conservation Actions.....	386
ZUNI WATERSHED	388
Species of Greatest Conservation Need.....	390
Perennial 1 st and 2 nd Order Streams and Perennial 3 rd and 4 th Order Streams	391
Habitat Condition.....	391
Problems Affecting Habitats or Species	392
Modification of Natural Processes.....	392
Invasive Species.....	392
Information Gaps	392
Research, Survey, and Monitoring Needs.....	392
Desired Future Outcomes	393
Prioritized Conservation Actions.....	394
ADDITIONAL SPECIES OF GREATEST CONSERVATION NEED.....	396
Bird, Mammal, Amphibian, and Mollusc SGCN	396
Boreal Owl.....	396
Distribution and Abundance	396
Problems Affecting Habitats or Species	397
Timber Harvest	397
Information Gaps	397
Research, Survey, and Monitoring Needs.....	398
Desired Future Outcomes	398
Prioritized Conservation Actions.....	398

Organ Mountains Colorado Chipmunk.....	399
Distribution and Abundance	399
Problems Affecting Habitats or Species	399
Habitat Conversion	399
Fire Management	400
Information Gaps	400
Research, Survey, and Monitoring Needs.....	400
Desired Future Outcomes	401
Prioritized Conservation Actions.....	401
Oscura Mountains Colorado Chipmunk	402
Distribution and Abundance	402
Problems Affecting Habitats or Species	402
Habitat Conversion	402
Fire Management	403
Information Gaps	403
Research, Survey, and Monitoring Needs.....	403
Desired Future Outcomes	404
Prioritized Conservation Actions.....	404
Eastern Barking Frog	405
Distribution and Abundance	405
Problems Affecting Habitats or Species	405
Habitat Conversion	405
Collecting.....	405
Information Gaps	405
Research, Survey, and Monitoring Needs.....	406
Desired Future Outcomes	406
Prioritized Conservation Actions.....	406
Hacheta Grande Woodlandsnail	407
Distribution and Abundance	407
Problems Affecting Habitats or Species	407
Biotic/Abiotic Resource Use.....	407
Fire Management	407
Information Gaps	407
Research, Survey, and Monitoring Needs.....	407
Desired Future Outcomes	408
Prioritized Conservation Actions.....	408
Lilljeborg’s Peaclam	409
Distribution and Abundance	409
Problems Affecting Habitats or Species	409
Pollution and Modification of Natural Processes	409
Information Gaps	409
Research, Survey, and Monitoring Needs.....	410
Desired Future Outcomes	410
Prioritized Conservation Actions.....	410
Peloncillo Mountains Talussnail.....	411

Distribution and Abundance	411
Problems Affecting Habitats or Species	411
Biotic/Abiotic Resource Use.....	411
Information Gaps	411
Research, Survey, and Monitoring Needs.....	411
Desired Future Outcomes	412
Prioritized Conservation Actions.....	412
Sangre de Cristo Peaclam	412
Distribution and Abundance	412
Problems Affecting Habitats or Species	413
Recreational Use	413
Pollution and Modification of Natural Processes	413
Non-Native/Invasive Species.....	413
Information Gaps	413
Research, Survey, and Monitoring Needs.....	413
Desired Future Outcomes	414
Prioritized Conservation Actions.....	414
Arthropod (Insecta, Arachnida, Chilopoda, Diplopoda, and Entognatha) SGCN	415
Distribution and Abundance	415
Problems Affecting Habitats or Species	415
Information Gaps	416
Research, Survey, and Monitoring Needs.....	416
Prioritized Conservation Actions.....	416
Chapter 6	417
MONITORING STATUS AND TRENDS.....	417
WHY MONITORING IS IMPORTANT	417
CURRENT MONITORING EFFORTS	419
Species Monitoring	419
Recovery Plans.....	423
Habitat Monitoring.....	425
Monitoring Needs	429
NEW MEXICO'S MONITORING PLANS.....	433
Adopt a Focused Approach to Monitoring	433
Enhance Cooperation and Coordination	434
Establish a Fish and Wildlife Habitat Monitoring Group.....	435
Monitor Habitat Connectivity	437
Establish a Centralized Monitoring Database and Clearinghouse.....	439
Integrate Citizen Science into CWCS Monitoring.....	440
Considerations for Monitoring Plan Design	441
Data Management, Quality Control, and Reporting Considerations	442
Performance Indicators	443

Chapter 7	444
IMPLEMENTATION, REVIEW, AND REVISION	444
IMPLEMENTATION.....	444

LIST OF TABLES

Table 2-1	Members of New Mexico Department of Game and Fish, New Mexico Cooperative Fish and Wildlife Research Unit, University of New Mexico, and New Mexico State Parks that served on the Core Planning Team or Technical Teams.....	6
Table 2-2	Criteria (one point per criterion) used to identify species indicative of New Mexico’s diverse life zones, habitats, and natural heritage.....	10
Table 2-3	Number of species considered extinct, exotic, common, or that were introduced for recreation, or their natural history requirements covered by other species identified.....	10
Table 2-4	Key aquatic and terrestrial habitats in New Mexico.....	12
Table 2-5	Conservation status rank definitions provided by NatureServe (http://www.natureserve.org). Status codes can be applied to State and National scales.....	15
Table 2-6	Conservation status ranks summarized into groups to facilitate New Mexico’s SGCN abundance summaries for the CWCS.....	15
Table 2-7	Description of categories of factors that influence habitats used in the CWCS for New Mexico. Descriptions derived from Salafsky <i>et al.</i> (2003)...	18
Table 2-8	Numeric scores (categorical measurement) given to each threat identified for each SWReGAP habitat type in New Mexico. Scores and definitions from Salafsky <i>et al.</i> (2003).....	18
Table 2-9	Criteria used to code model inputs to numeric values from 1-4 to identify landscapes that may be key areas for focusing conservation efforts.....	21
Table 3-1	Approximate number of species in New Mexico and the percent of those species that fall under NMDGF management authority (Data: Bison-M, http://fwie.fw.vt.edu/states/nm.htm).....	26
Table 3-2	Land area (acre) and percent in 12 land steward categories in New Mexico estimated by New Mexico Gap Analysis Project (SWReGAP: http://fws-nmcfwru.nmsu.edu/swregap/).....	29
Table 3-3	Land area (acre) and percent of New Mexico in four land status categories estimated by New Mexico Gap Analysis Project (SWReGAP: http://fws-nmcfwru.nmsu.edu/swregap/).....	29
Table 3-4	SWReGAP land cover types (NatureServe 2004b) used to illustrate riparian communities in New Mexico.....	46
Table 4-1	Species of Greatest Conservation Need (SGCN) identified in New Mexico. Of the 452 species designated as SGCN, 298 species are fish, birds, mammals, amphibians, reptiles, molluscs, and crustaceans. The remaining 154 species are arthropod species in the classes of Arachnida, Chilopoda, Diplopoda, Entognatha, and Insecta. Scientific names to species can be found in Appendix C.....	54

Table 4-2	Approximate number and percent of Species of Greatest Conservation Need (SGCN) taxa in New Mexico.....	58
Table 4-3	Number of SGCN taxa by groups and ecoregion or watershed in New Mexico.....	60
Table 4-4	Potential diseases, hazards, toxins, and parasites contacted by wildlife at the wildland urban interfaces.....	72
Table 5-1	Key terrestrial habitats discussed in the ecoregion ecological framework.....	91
Table 5-2	Key perennial aquatic habitats discussed in the watershed ecological framework.....	91
Table 5-3	Species of Greatest Conservation Need in the Apache Highlands Ecoregion in New Mexico.....	95
Table 5-4	Species of Greatest Conservation Need in the Arizona-New Mexico Mountains Ecoregion in New Mexico.....	115
Table 5-5	Species of Greatest Conservation Need in the Chihuahuan Desert Ecoregion in New Mexico.....	151
Table 5-6	Species of Greatest Conservation Need in the Colorado Plateau Ecoregion in New Mexico.....	167
Table 5-7	Species of Greatest Conservation Need in the Southern Rocky Mountains Ecoregion in New Mexico.....	176
Table 5-8	Species of Greatest Conservation Need in the Southern Shortgrass Prairie Ecoregion in New Mexico.....	201
Table 5-9	Species of Greatest Conservation Need associated with Riparian Habitats in New Mexico.....	222
Table 5-10	Species of Greatest Conservation Need associated with ephemeral aquatic habitats and perennial tank habitats in New Mexico.....	250
Table 5-11	Species of Greatest Conservation Need in the Canadian Watershed in New Mexico.....	272
Table 5-12	Species of Greatest Conservation Need in the Gila Watershed in New Mexico.....	290
Table 5-13	Species of Greatest Conservation Need in the Mimbres Watershed in New Mexico.....	308
Table 5-14	Species of Greatest Conservation Need in the Pecos Watershed in New Mexico.....	321
Table 5-15	Species of Greatest Conservation Need in the Rio Grande Watershed in New Mexico.....	343
Table 5-16	Species of Greatest Conservation Need in the San Juan Watershed in New Mexico.....	364

Table 5-17	Species of Greatest Conservation Need in the Tularosa Watershed in New Mexico.....	378
Table 5-18	Species of Greatest Conservation Need in the Zuni Watershed in New Mexico.....	390
Table 5-19	Additional bird, mammal, amphibian, and mollusc SGCN in New Mexico....	396
Table 6-1	Current monitoring efforts for terrestrial and aquatic SGCN that identify ongoing status, population trend, presence/absence, reproduction, demographic and other monitoring efforts for state- and federally-listed species and other SGCN. This list does not identify all species with monitoring efforts, nor all monitoring efforts for each species.....	420
Table 6-2	Federal Recovery Plans for New Mexico State-listed and SGCN Wildlife.....	424
Table 6-3	State listed wildlife without a recovery plan, conservation plan, or conservation agreement.....	430
Table 6-4	Potential conservation actions and performance indicators for the CWCS in New Mexico.....	443

LIST OF FIGURES

Figure 2-1	Approach employed to identify Species of Greatest Conservation Need in New Mexico.....	9
Figure 2-2	Process used to develop conservation actions for the CWCS for New Mexico.....	19
Figure 3-1	Species richness (number of vertebrate taxa) modeled by SWReGAP in Nevada, Arizona, Utah, Colorado, and New Mexico (SWReGAP: http://fws-nmcfwru.nmsu.edu/swregap/).....	26
Figure 3-2	Approximate percentages of rangeland, cropland, Conservation Reserve Program land, forest, other rural uses, and non-rural lands in New Mexico. Estimates derived from US Department of Agriculture (2000)...	28
Figure 3-3	New Mexico’s land stewardships categorization (SWReGAP: http://fws-nmcfwru.nmsu.edu/swregap/).....	30
Figure 3-4	Land Steward Conservation Status in New Mexico as estimated by SWReGAP (http://fws-nmcfwru.nmsu.edu/swregap/). Descriptions of land stewardship gap status codes are presented in Table 3-3.....	30
Figure 3-5	The Nature Conservancy (TNC) ecoregions used as the ecological framework for terrestrial habitats in New Mexico.....	32
Figure 3-6	Watersheds used for the ecological framework for aquatic habitats in New Mexico.....	32
Figure 4-1	The amount and percent of vertebrate, mollusc, and crustacean Species of Greatest Conservation Need for each taxa group within conservation status groups. Codes to color and large numbers are given in table below pie graphs.....	59
Figure 4-2	Predicted distribution of the Sacramento Mountains Salamander (<i>Aneides hardii</i>) in New Mexico.....	61
Figure 4-3	Predicted distribution of the Rio Grande cutthroat trout (<i>Oncorhynchus clarki virginalis</i>) in New Mexico.....	61
Figure 4-4	Predicted distribution of Arizona Myotis (<i>Myotis occultus</i>) in New Mexico.....	62
Figure 4-5	Terrestrial and aquatic Species of Greatest Conservation Need richness (number of SGCN taxa) in New Mexico. Darker areas indicate greater number of SGCN taxa present.....	62

Figure 4-6	Cumulative magnitude scores of 43 factors that influence key habitats in New Mexico. This analysis assists in the identification of key habitats which may have the highest risk of being altered by synergistic effects of factors that influence habitats. Methods of calculating magnitude scores are presented in the Approach chapter. Magnitude scores for each key habitat by category of factors that influence habitats are provided in Appendix L.....	79
Figure 4-7	Magnitude scores of factors that influence habitats associated with terrestrial and aquatic land cover types. This spatial representation is designed to enhance our understanding of geographic areas where synergistic effects of potential factors may influence some habitats more than others. This analysis should not be used to locate small parcels of land.....	80
Figure 4-8	Key areas to consider for planning conservation efforts. This spatial representation is designed to enhance our understanding of geographic areas where conservation efforts may be needed. This analysis should not be used to locate small parcels of land.....	90
Figure 5-1	Key terrestrial habitats in the Apache Highlands Ecoregion in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	94
Figure 5-2	Key terrestrial habitats in the Arizona-New Mexico Mountains Ecoregion in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	114
Figure 5-3	Key terrestrial habitats in the Chihuahuan Desert Ecoregion in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	150
Figure 5-4	Key terrestrial habitats in the Colorado Plateau Ecoregion in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	166
Figure 5-5	Key terrestrial habitats in the Southern Rocky Mountains Ecoregion in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	175
Figure 5-6	Key terrestrial habitats in the Southern Shortgrass Prairie in New Mexico. Adjacent land cover types are given to provide an indication of vegetation surrounding key habitats. Key habitats are designated with an asterisk (*).....	200

Figure 5-7	Key riparian habitats in New Mexico. Dick Peddie (1993) riparian groups are shown on map.....	221
Figure 5-8	Key statewide aquatic habitats in New Mexico. Ephemeral marsh/cienega and man-made catchments are not shown.....	249
Figure 5-9	Key perennial aquatic habitats in the Canadian Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	270
Figure 5-10	Key perennial aquatic habitats in the Gila Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	288
Figure 5-11	Key perennial aquatic habitats in the Mimbres Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	307
Figure 5-12	Key perennial aquatic habitats in the Pecos Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	320
Figure 5-13	Key perennial aquatic habitats in the Rio Grande Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	342
Figure 5-14	Key perennial aquatic habitats in the San Juan Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	363
Figure 5-15	Key perennial aquatic habitats in the Tularosa Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	377
Figure 5-16	Key perennial aquatic habitats in the Zuni Watershed in New Mexico. Key habitats are designated with an asterisk (*)......	389
Figure 6-1	Spatial depictions of these priority highway segments identified during the 2003 “Critical Mass” workshop sponsored by the New Mexico Carnivore Working Group, NMDGF, USFWS and USFS.....	438
Figure 7-1	New Mexico’s CWCS Implementation, Review, and Revision Cycle.....	445

LIST OF APPENDICES

Appendix A	Glossary of terms used in CWCS for New Mexico.....	527
Appendix B	Taxa specific criteria developed by the New Mexico Department of Game and Fish to determine the vulnerability of species for placement onto the SGCN list.....	535
Appendix C	List of species that are indicative of the diversity and health of New Mexico’s wildlife (Indicative Species). Selection criteria and total score values are given. Abbreviations for selection criteria precede species list..	537
Appendix D	Codes and descriptions of 89 SWReGAP land cover types that occur in New Mexico (NatureServe 2004).....	549
Appendix E	Codes of aquatic habitat types in New Mexico identified by the New Mexico Department of Game and Fish. Descriptions compiled from the Glossary of Aquatic Habitat Inventory Terminology published by the American Fisheries Society (1998).....	569
Appendix F	Key terrestrial habitat types (9) in New Mexico for New Mexico’s CWCS. Several SWReGAP land cover types were aggregated into nine key habitats. Descriptions of each SWReGAP land cover type can be found in Appendix D.....	572
Appendix G	Key aquatic habitat types (10) in New Mexico for New Mexico’s CWCS. Several habitat types were aggregated into ten key habitats. Descriptions of each aquatic habitat type can be found in Appendix E.....	573
Appendix H	Species of Greatest Conservation Need (SGCN) identified in New Mexico. Adjusted NatureServe state and national conservation status codes, federal and state status designation, New Mexico Authority designation, and game species status are presented. Codes to table precede species list.....	574
Appendix I	Specific factors that influence the integrity of Species of Greatest Conservation Need populations in New Mexico. Factors compiled by New Mexico Department of Game and Fish.....	586
Appendix J	Categories and generic factors that influence habitats in New Mexico identified for New Mexico’s CWCS. Categories of factors that influence habitats were adapted from Salafsky <i>et al.</i> (2003). Definitions of these categories can be found in the Approach chapter. Descriptions of each generic factor can be found in Appendix K.....	615
Appendix K	Descriptions of factors that influence species and habitats identified for New Mexico’s CWCS.....	617
Appendix L	Magnitude scores for categories of factor that influence key habitats in New Mexico. Categories and generic factors are in Appendix K. Descriptions of categories are in Chapter 2; Table 2-7.....	619

Appendix M	Summarized information gaps that impair our ability to make informed conservation decisions of key terrestrial habitats and associated SGCN in New Mexico. Detailed information gaps are located in the Assessments and Strategies for Species of Greatest Conservation Need and Key Habitats Chapter.....	620
Appendix N	Summarized information gaps that impair our ability to make informed conservation decisions associated with key aquatic habitats and associated SGCN in New Mexico. Detailed information gaps are located in the Assessments and Strategies for Species of Greatest Conservation Need and Key Habitats Chapter.....	622
Appendix O	Research, survey, and monitoring needs that would enhance conservation efforts for key terrestrial habitats and associated SGCN in New Mexico. Detailed research, survey, and monitoring needs are located in the Assessments and Strategies for Species of Greatest Conservation Need and Key Habitats Chapter.....	624
Appendix P	Research, survey, and monitoring needs that would enhance conservation efforts for key aquatic habitats and associated SGCN in New Mexico. Detailed research, survey, and monitoring needs are located in the Assessments and Strategies for Species of Greatest Conservation Need and Key Habitats Chapter.....	626
Appendix Q	Habitat associations for other arthropod classes (Arachnida, Chilopoda, Diplopoda, Entognatha, and Insecta) within ecoregions. The full extent of their habitat associations and geographic distribution is uncertain. Known habitat associations are indicated with an ‘x’. Habitat associations for all other SGCN can be found in the Assessment and Strategies for Species of Greatest Conservation Need and Key Habitats Chapter.....	628
Appendix R	Federal, tribal, state, and local agencies, non-governmental organizations, conservation organizations, sportsmen associations, agricultural interests, other interests, universities, and news media contacted for involvement in the development of the CWCS for New Mexico.....	633
